CHAPTER 37 COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) PROGRAM
2009 PROGRAM STATEMENT**

SUMMARY

This Program Statement describes the method by which 2009 Community Development Block Grant (CDBG) program funds will be distributed. The CDBG program is administered pursuant to 5 M.R.S.A 13073. The 2009 CDBG program has been developed by the Department of Economic and Community Development (DECD) following a review of past programs, a forum with program constituents, and a comprehensive assessment of statewide community and economic development needs. In accordance with the Maine Administrative Procedures Act, DECD held a public hearing regarding the development of this Program Statement.

SECTION 1. PROGRAM OVERVIEW

2. General Requirements:

(a) Prohibition on Multiple Grants: Except for the Economic Development Program (EDP), eligible applicants may not apply for, or benefit from, more than one grant per program category in any grant year. Communities participating in multi-jurisdictional applications may submit their own applications for the same program as long as they demonstrate that there will not be a duplication of program activity/benefit.

(i) Community Enterprise Prohibition - Communities applying for a Community Enterprise (CE) grant may not apply for, receive, or benefit from a Downtown Revitalization (DR) grant in the same program year.

(ii) Downtown Revitalization Program Prohibition - Communities applying

for a Downtown Revitalization (DR) grant may not apply for, receive, or benefit from a Community Enterprise (CE) grant in the same program year.

(iii) Eligible applicants applying on behalf of a Maine Indian Tribe are permitted to apply in the same 2009 CDBG funding category as long as the eligible applicant will not directly benefit from the tribal CDBG project.

(b) Prohibition on Subsequent Year Award: Except for the Economic Development Program (EDP) and designated Public Infrastructure Grant Program (PI) activities, units of general local government and Unorganized Territory that benefited from a 2008 award may not apply again in that specific program until the 2010 program. PI grantees in Activity Group Number 1, as listed in Section 2. E. 3. (a) (1) on Page 21 of this Statement may apply for grants in consecutive years to complete the same project.

(c) Special Prohibition for Housing Assistance (HA) Grantees: Communities may not submit a HA application if they have received or benefited from two (2) HA awards (rehabilitation, innovative or a combination) within the five (5) year period prior to the CDBG program year for which applications are being accepted.

(d) Special Prohibition for Downtown Revitalization (DR) Grantees: Communities may not submit a DR application if they have received or benefited from two (2) DR awards within the five (5) year period prior to the CDBG program year for which applications are being accepted. **Applications for multi-jurisdictional Downtown Revitalization projects will only be eligible if the downtowns are contiguous and each meets the definition of a downtown as defined in PL 776.**

(e) Restriction of Grant Awards: OCD may deny or restrict the award of grants to communities with outstanding audit(s), monitoring findings, or a record of administrative misconduct.

(f) Past Performance: In order to be eligible to apply for a 2009 Community Development Block Grant program, communities that received CDBG grants in or prior to 2005 must have finally closed out their grants prior to application due date. Communities that received CDBG grants in 2006 must have conditionally closed their grants prior to application due date. Communities that received CDBG grants in 2007 must have expended 50% of their benefit activity funds prior to application due date. Communities that received 2008 CDBG grants must be under contract with DECD. All Past Performance Criteria will be strictly enforced; however these criteria may be waived for just cause by the Director, OCD in the case of applicants having existing Economic Development program awards where job creation benefit has not been met.

(i) Special Housing Assistance Grant Program (HA) Past Performance

Requirement - Communities are not eligible to apply for a HA grant unless all prior HA grants are 100% expended and conditionally closed out. 100% expended also requires that no HA funds exist in the housing escrow account.

(g) Grant Termination: OCD will terminate a community's grant if progress on the project is not apparent within 6 months, or 3 months in the case of Community Planning Grants, from the date of contract signing. The Director of Office of Community Development may grant waivers for cause.

(h) Eligible Activities: Applications will be reviewed to determine that the activities proposed are eligible under Section 105(a) of the Act. Ineligible activities will not be considered.

(i) Project Benefit: Letters of Intent and required documentation for all programs with the exception of Non-Profit Development Program, Urgent Need Grant Program, Special Project Matching Fund, Critical Access Ramp Program, SBDC Technical Assistance and Community Planning Grant Program will be reviewed to verify that the proposed activities meet at least one of the CDBG Program national objectives pursuant to section 104(b) 3 of the Act. If the activity does not meet a national objective the application will not be considered for funding and returned to the applicant.

(j) Repayment of Grant Funds: Recipients must repay on demand to the State of Maine all funds expended if CDBG program benefits are not achieved as specified in their contract with the DECD.

(k) Changes in Title 30-A, Subsection 4349-A as amended by PL 776: Significant changes were made to the "Growth Management Act" by the 119th Legislature that affect the award of CDBG grants after January 1, 2001. OCD will provide information separate from the Program Statement outlining these changes and their impact on the award of CDBG grants for "growth related capital investments" as defined in the statute.

(l) Preference for Communities: In accordance with MRSA Title 30-A subsection 4349-A (3), OCD is required to give preference in the award of grants to capital investments defined as "growth related" in subsection 4301(5-B) to communities with certified growth management programs or that have adopted a comprehensive plan and implementation strategy consistent with the goals and guidelines of the subchapter. A municipality that does not obtain a certificate or finding of consistency within 4 years after receipt of the first installment of a financial assistance grant or rejection of an offer of financial assistance will receive a low priority.

3. Eligible Applicants:

All units of general local government in Maine, including plantations, except for the entitlement communities of Auburn, Bangor, Biddeford, Lewiston, Portland and all of Cumberland County with the exception of Baldwin, Brunswick, Casco, Frye Island and Westbrook are eligible to apply for and receive State CDBG program funds. County governments may apply on behalf of the Unorganized Territory. Groups of local governments may apply for multi-jurisdictional or joint projects. Multi-jurisdictional applications require designation of one local government as the lead applicant and consent for that designation by each participating local government. Counties may apply for the Economic Development or Public Service programs on behalf of a collaboration of communities. **Eligible applicants as defined above may apply for CDBG assistance on behalf of the five Maine Indian Tribes. Maine Indian Tribes are not themselves eligible applicants.**

4. Application Threshold Requirements:

Incomplete and/or non-conforming applications which do not meet the specifications set forth in the 2009 Program Statement and 2009 CDBG Application Packages will be removed from the scoring process during the threshold review.

5. Financial Commitments as a Threshold Requirement:

Applications for projects not demonstrating a firm financial commitment as required in the application materials will be removed from the scoring process during the threshold review.

6. Scoring of Applications:

Applicants will be placed in rank order from highest to lowest according to the final scores determined by the OCD Review Team. All program applications with the exception of the Special Project Matching Fund, Urgent Need Grants, SBDC Technical Assistance, Home Repair Network, Critical Access Ramp Program and Non-Profit Development Grant program will be scored on a 100-point maximum scoring basis with allowance for bonus points where applicable. Final scores will be determined by averaging the scores assigned by members of the 4-person OCD Review Team and adding any applicable community evaluation factors and bonus point totals. Starting at the top of the scoring list, applicants will be invited to proceed to the Project Development Phase as funds allow. **In the event of a tie in any CDBG program scoring process, first consideration will be given to the community that is listed by the Maine State Planning Office as a Service Center; if both applicants meet this definition, the tie will be broken based on the highest Community Evaluation Factor.** An invitation into the Project Development Phase is not a guarantee of funding or permission to obligate funds. Successful communities will receive an amount determined by the OCD for their project.

(a) Community Evaluation Factor: A pre-determined community evaluation factor with a maximum point total of 20 will be added to the average review team score for each application for the Housing Assistance, Public Infrastructure and Public Facilities grant programs to determine the final score. The Community Evaluation Factor will be based on pre-determined criteria established by an independent authority for each community in Maine and be published in the 2009 Program Statement.

7. Minimum Score for CDBG Applications to be Considered for Funding:

Except for the Non-Profit Development Grant Program (NPDG) there is no minimum score for CDBG applications to be considered for funding.

8. Project Development Phase:

(a) Project Planning: Details of the project including pre-engineering, inspections, cost analysis, feasibility, and/or market studies.

(b) Management Plan: Details of the structure and methods established by the community for program management.

(c) Regulations: Project Development Phase applications will be reviewed for compliance with State and Federal regulations.

(d) Project Eligibility: Verification that proposed activities are eligible under The Act.

(e) Project Benefit: Verification that proposed activities meet one of the CDBG Program National Objectives.

(f) Environmental Review: Review of project for compliance with State and Federal Environmental Regulations.

(g) Project Development Phase Requirement: All communities receiving a CDBG program grant award must complete the project development phase materials as outlined in the Maine CDBG Program materials and handbooks.

9. Project Development Phase Timeframe for Completion and OCD Assistance:

The goal of the Project Development Phase is a grant contract for CDBG funds. An OCD Development Program Manager will be assigned to work closely with each community to finalize their project. OCD will rescind the CDBG program award offer if the community is not under contract within six months of the date of the award offer and invitation into the project development phase process. For the Community Planning Grant program OCD will rescind the CDBG program award offer if the community is not under contract within three months of the date of the award offer and invitation into the project development phase process. The Director of the Office of Community Development may grant waivers for just cause.

E. INTERIM FINANCE PROGRAM

The Interim Finance Program (IFP) utilizes funds not disbursed in the State's Letter of Credit for grants to communities to assist businesses or developers in creating housing and job opportunities for low and moderate-income people through short-term loans. The duration of loans will be dependant on availability of CDBG funds.

1. Threshold Criteria:

(a) The proposed activities must meet the low and moderate-income objective as described below:

(i) At a minimum, 51% of the jobs created or retained as a result of the IFP project must be taken by persons of low and moderate income. Jobs created/retained must be in the community applying for the IFP, be new jobs to that community, and not be associated with any other branches of the assisted business located in another community. Transfer positions cannot be counted toward the job creation/retention requirements. **In the event that job creation requirements are not met, the applicant community will be responsible for immediate repayment of all CDBG funds to the State.**

(ii) The maximum cost per job created or retained with IFP funds is \$20,000. The maximum cost per job created or retained with IFP funds for eligible Pine Tree Development Zone, Empowerment Zone or HUB Zone applicants is \$30,000.

(iii) At least 51% of the housing units created by the IFP project must be occupied by low and moderate-income households, or

(iv) The IFP expenditures reduce the development costs for new multi-family, non-elderly housing construction where not less than 20% of the units will be occupied by low and moderate-income households at affordable rents **and** the proportion of the total cost of developing the project to be borne by the IFP funds is no greater than the proportion of units in the project that will be occupied by low and moderate-income households.

(b) Complete the required IFP application materials.

(c) The application amount must be between \$500,000 and \$5,000,000. The Commissioner of DECD may waive the \$500,000 minimum requirement if OCD determines it is in the best interest of the State and if OCD incurs no additional administrative costs as a result of the smaller award. Eligible planning activities necessary to complete the Project Development Phase are also an allowable expense.

2. Special Program Requirements: IFP applicants must also comply with the following:

(a) Need for Financing: There must be a demonstrated need for an IFP loan in order for the project to be funded. The need may be based upon either a gap in available funding for the project or on a determination that the costs of financing so adversely affect the project's rate of return that the project would not be undertaken

without additional assistance. IFP grantees must demonstrate the proposed rate and term have been set to ensure that assistance provided is the minimum needed and the proposed assistance is necessary and appropriate to carry out the economic development project.

(b) Commitment of Non-CDBG Funds: The business being assisted must demonstrate that all non-CDBG financing, both permanent and interim, necessary for the project's completion has been secured.

(c) Community Benefit: The project must result in substantial benefit to the community: job creation/retention, tax revenue increases, new housing opportunities, or public facility improvements relative to the public dollar investment.

(d) Surety: The business being assisted by the IFP grantee must secure an unconditional, irrevocable letter of credit for the full amount of the Interim Financing Loan (principal plus any accrued interest to term) from a lending institution acceptable to DECD which will be assigned to the State. The State may accept a FAME guarantee in lieu of an irrevocable letter of credit, or other surety instrument deemed acceptable by DECD.

3. Selection Process: Applications may be submitted on an open basis. IFP grants will be made on a first come, first served basis. Projects that meet requirements may be awarded IFP grants until the amount of funds available in the State's letter of credit has been committed. Following full commitment of the IFP, the State will maintain a waiting list of eligible projects to be funded. If projected funds will not be available for a minimum of six months, the State reserves the right not to accept any additional applications.

4. Approval Process: Through its Technical Assistance Providers, direct mailings, and other marketing methods, the State will advertise the availability of funds within the IFP. Communities interested in applying will: notify the State of their intent to apply, identify the proposed loan recipient and provide an application describing the project. Following the acceptance of a complete application by the State, the DECD or its designee will conduct a financial analysis of the project, DECD will determine if the IFP loan is needed, if all non-CDBG permanent and interim funds are committed, and if an irrevocable letter of credit is in place. The DECD staff will recommend the loan terms and interest rates to the Director, Office of Community Development. The State will review all other program requirements. If these requirements are met, the Commissioner of the DECD will make a grant award based on the project meeting all program requirements.

Approval for the use of SPMF funds is through the Director, Office of Community Development.

SECTION 5. REDISTRIBUTION OF GRANT FUNDS & PROGRAM INCOME

This section describes the methods by which undistributed funds, disencumbered funds, additional funds received from HUD, and program income will be redistributed.

A. ADMINISTRATIVE REDISTRIBUTION OF GRANT FUNDS

1. Local Government Grants from the State: Applicants receiving grants under the 2009 CDBG program but failing to have their projects substantially underway (staff hired, environmental review complete, program costs obligated, construction or services begun) within six months of grant award, may have their grant rescinded by DECD. Unexpended grant funds may be added to any open CDBG contract, used to make additional awards in any 2009 CDBG program, or added to the available monies for the 2009 or 2010 competition.

Unexpended funds remaining in the grantee's CDBG account at grant closeout, funds remaining in a grantee's award but not drawdown upon grant closeout, and funds returned to DECD because of disallowed costs may be added to any open CDBG contract, used to make additional awards in any 2009 CDBG program, or added to the available monies for the 2009 or 2010 competition.

2. Unallocated State Grants to Local Governments: Unallocated grant funds resulting from lack of adequate program competition or demand in any of the available 2009 CDBG programs may be added to any open CDBG contract, used to make additional awards in any 2009 CDBG program or added to the available monies for the 2009 or 2010 competition.

3. Basis for Redistribution: The decision to redistribute funds will be made after staff evaluation of the following: the total funds available, requests for additional funding from current CDBG grantees, any applicants for the 2009 competitions that did not receive funding, and the possibility of holding additional competitions during the 2009 Program. In all cases, these additional competitions and the subsequent programs developed will be subject to the 2009 Program Statement.

4. Development Fund Program Repayments: DF loan repayments to DECD will be used to capitalize a revolving loan fund for the purpose of making additional DF program awards.

5. Business Assistance Program Repayments: BA loan repayments will be used to fund additional future awards within the specific program categories under which the original award was made.

B. PROGRAM INCOME

As used in this Proposed Statement, "Program Income" means the gross income received by a grantee from any grant-supported activity. Applicants will refer to the CDBG Regulations and the Maine Office of Community Development policies on program income.

Program Income shall also mean gross income received by DECD for repayment of loans under the DF and BA programs. Repayments from each program will be used to capitalize revolving loan funds to make additional future awards within the specific programs under which the original awards were made.

SECTION 6. APPEALS

An applicant wishing to appeal DECD's decision regarding their 2009 application may do so by submitting an appeal letter to the Commissioner of The Department of Economic and Community Development within fifteen (15) days of the award announcement for that specific program.

Appeals of award decisions are restricted to errors of fact or procedure. Appeals in the areas of judgment qualitative scoring will not be entertained. In the case of a successful appeal, funds will be reserved for the project from available or subsequent CDBG funds.

SECTION 7. AMENDMENTS TO THE PROGRAM STATEMENT

The State may amend the 2009 Program Statement from time to time in accordance with the same procedures required for the preparation and submission of the program statement. The State of Maine's Administrative Procedures Act will guide the amendment process.

RE: Community Evaluation Factor

Background: In recent years, for the Housing Assistance, Public Facility and Public Infrastructure programs, a “Community Evaluation Factor” has been used in the scoring process. The 7 factors used totaled 20 points and were calculated for communities within set population ranges. During the rule making process for the Program Statement, some suggestions have been made to use more relevant information, but substantive suggestions as to what might actually be more relevant were not received. Therefore, this year the OCD contracted with Planning Decisions, Inc. to look at this portion of the scoring process.

Planning Decisions identified two major problems with the existing factors. First, the data is complicated to collect and analyze, the process is time-consuming, and unhelpful to potential applicants in predetermining a degree of competitiveness before applying. Second, the data on substandard housing, rental affordability, low and moderate income population, and poverty, are based on the 2000 Census. This is currently six years old, and becomes increasingly out of date each year.

Therefore, Planning Decisions proceeded with their analysis with the following basic assumptions:

1. Scoring factors should be closely related to the program function for which the scoring factors relate (i.e., housing and infrastructure);
2. Some balancing is needed so that there is not a bias towards small communities (with few in need, but a high percentage) and large communities (which may have many in need even with a very low percentage).
3. Data which is updated on an ongoing basis, even if less precise, is preferable to data from the 2000 Census.
4. In order for communities to know in advance where they stand, the points must be predetermined prior to applications, and not depend on application data.

Relevance and weighting of factors: Under the existing system, each of the 7 factors was given an equal weight, so the result is that financial commitment and lower income households were given a “double” weight and the issue becomes whether the factors address the right criteria for the programs in question.

Logically, different criteria might be used to deal with housing needs as opposed to an infrastructure needs. These differences are already part of the scoring system, specifically, the narrative “impact” section (30 points) of the application. The community evaluation factor is meant to come into play when all other factors are basically equal – to determine awards where two communities have similar needs and equally effective solutions.

In this light, the most important factor would appear to be tax burden. For infrastructure, all other things being equal, the State would wish to fund activities in a town that is already making a significant tax effort; while substandard housing is important for rehab programs, and affordable housing is important for all programs and the presence of low-income people is a relevant factor, they are already heavily considered in the low-income benefit aspect of the program design. Financial commitment is relevant, but it does not fit into the Community Evaluation factor, because it is application-specific, and cannot be predetermined.

Given all of this, and putting aside the question of the appropriateness of individual measurements, Planning Decisions recommends a weighting that gives tax burden 50% of the points (10), housing 40% (8 points), and low income population 10% (2 points). The recommended distribution is below.

Type of factor	2006 Measurement	2006 points	Recommended 2007 points	Comment
Financial commitment	<i>Budget Page review</i>	2	0	Doesn't fit into this factor
	<i>leveraging</i>	3		
Substandard housing	<i>without plumbing</i>	3	4	relevant for rehabilitation
Affordability	<i>Renters >25%</i>	3	4	relevant for all housing programs
Tax burden	<i>Tax rate</i>	3	10	the single most important factor for infrastructure
Low income population	<i>Community LMI</i>	3	2	relevant to all programs
	<i><150% of poverty</i>	3		
TOTAL		20	20	

Best measures: Given this general weighting of factors, how do we best measure them?

The current *substandard housing* measure uses data from the 2000 Census and is increasingly irrelevant today as hardly any year-round units in Maine lack complete plumbing and overcrowding continues to be a problem, more indicative of an affordability issue than of poor physical housing conditions. Therefore, the best external indicator for rehabilitation need is simply the age of its housing stock. While the age of housing is measured in the 2000 Census, updating is not important in this case, since the number of older units changes little from year-to-year.

Affordability is a problem that changes year to year, as the housing cycle changes. Therefore, the best current measure of affordability is the “affordability index” published annually by Maine Housing which tracks changes in the housing market by community, and matches it against annual changes in median income in that community.

The best measure of *tax burden* was designed by the Maine Municipal Association a few years ago. Unfortunately, MMA has not continued with this. Therefore, OCD’s current approach of calculating the community’s tax rate (state-equalized) relative to the state average is better than any of the alternatives.

The HUD measures of *low and moderate income people* and *poverty* are all based on 2000 Census data. Therefore, the best current estimates on a town level for low and moderate income people are from Maine Housing, with data from a private provider called Claritas. For purposes of this factor, the proportion of households under 50% of area median income would provide a good sense of how many really low-income people are residing in an individual community. The measures that will be used are in the table below:

Type of factor	Best measure	How to Score	Source	Timeliness
Substandard housing	housing built before 1939	> 35% = 4 30 to 35% = 3 20 to 30% = 2 10 to 20% = 1 <10% = 0	2000 Census	2000 Census (but doesn't change between Censuses)
Affordability	Affordability Index (state average 0.7)	under 0.7 = 4 0.7 to 0.8 = 3 0.8 to 0.9 = 2 0.9 to 1.0 = 1 1.1+ = 0	Maine Housing	Annual
Tax burden	Keep the same (state average 12.99)	>25 = 10 20 to 24 = 8 15 to 20 = 5 10 to 15 = 3 Under 10 = 0	Maine Revenue Services	Annual
Low income population	<50% of Area Median Income	20% + = 2 10 to 20% = 1 >10% = 0	Maine Housing (Claritas)	Annual

Finally, the question of adjustments for small and large municipalities: The discussion so far has not addressed whether the scoring system should take special measures to account for communities of different sizes – either by scaling all of the proposed measurements by sizes of communities, as is done now, or by including a balance of absolute number and percentage measures, in order to compensate for the effects of size on a measurement.

Planning Decisions does not recommend any special measures for the new method outlined above. There is no particular relationship between old housing and small or large municipalities; for example, Lewiston has a lot of old housing, and so does Osborne, and both would have a high score in this measure. Likewise, tax burden and affordability are unaffected either way by community size. The last measure, low income population, might favor rural communities because it is a percentage measure; but some urban service centers will get the maximum points on this, and therefore is recommended as a low point item.
